FORWARD-LOOKING STATEMENT

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospect and take informed investment decisions. This report and other statement - written and oral - that we periodically make, may content forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as "anticipates," "estimates," "expects", "projects", "intends", "plans", "believes" and words of similar substance in connection with any discussion of future performance.

We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumption. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialised, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

LETTER TO THE STAKEHOLDERS

Anirudh Sonpal
Chairman

Dear Shareholders,

It gives me great pleasure to present to you your Company's Annual Report for the Financial Year ended 31st March, 2017. I am pleased to share that even in the face of global and economic headwinds, we have achieved a remarkable performance, underlining our success in building a resilient business capable of generating long-term value.

The year 2016 was marked by unexpected developments led by the unanticipated outcome of the BREXIT referendum and the U.S. Presidential elections later in the year. Relatively slow growth, weak business investment, steady rise in oil prices, and recovery of headline inflation rates in advanced economies with the bottoming out of commodity prices were the other highlights shaping the global economy. In addition, a new wave of protectionism and trade tensions in advanced economies has emerged as the new threat to global growth. Closer home, the government's surprise demonetisation move impacted economic activities in the short-run. Deferment of several government projects to FY 18 from FY 17 due to State elections in our key domestic markets was another challenge beyond our control.

Total revenue on a standalone basis for the FY 2016-17 has grown to ₹ 1335 crore from ₹ 1175 crore in the previous year, registering a growth of 14%.

In the backdrop of this tough environment, your Company demonstrated remarkable agility and business acumen to deliver a satisfactory financial performance. Total revenue on a standalone basis for the FY 2016-17 has grown to ₹ 1,335 crore from ₹ 1,175 crore in the previous year, registering a growth of 14%. This increase in our topline, as well as our sharp focus on improving efficiency, facilitated EBITDA to increase to ₹ 184.66 crore in FY 2016-17 from ₹ 158.30 crore in the previous year. Profit before Tax (PBT) has also recorded an impressive growth to ₹ 9.32 crore in FY 2016-17 from ₹ 1.36 crore in the previous year.

Our encouraging performance even in the face of significant external pressure reaffirms our business strengths. Our global scale of operations, niche product portfolio with high quality certifications and state-of-the-art manufacturing facilities enables us to navigate successfully the toughness in the market. Further, our sharp focus on innovation and research & development allows us to understand and respond rapidly to market and customer demands, thus improving our value proposition. Endorsing our excellent competencies, robust growth and promising potential, a recent survey conducted by Dun & Bradstreet placed us among 'India's Top 500 Companies 2016'.

Going forward, the Company will continue to focus on operational efficiencies and cost reduction. We have already initiated several steps in this direction by successfully implementing 'Just-in-time' approach – a production methodology that reduces inventory costs by avoiding the waste associated with overproduction, waiting and excess inventory. We are also working towards reducing our finance costs by switching over to financing through low cost borrowing schemes. The year also saw a paradigm shift in our pricing process by taking into consideration labour involvement as against only taking into account the weight of final output. This superior pricing methodology is expected to pave the way for improved profitability.

Our core strength is in the manufacture of Flexible Intermediate Bulk Containers (FIBC). Standing tall as India's largest FIBC manufacturer and the second largest player globally, our products find a place in over 60 countries spread across five continents. Always looking to raise the bar on performance, we are continually making efforts to augment our capabilities, markets and product offerings. Aligned to this approach, during the review period, we successfully diversified to new geographies as well as increased the scope of applications of our product offerings thus expanding our addressable market. Notwithstanding that the current use of FIBC in India is still at a nascent stage, their demand is expected to catapult in the coming decade to make India the world's largest FIBC consuming market. Leveraging our international track record, we remain confident of unearthing attractive growth opportunities in the domestic circuit as well.

Leveraging our core competence of polymer processing in the field of bulk packaging, foray into geo-textiles was a natural progression for our business. The infrastructure industry is the biggest user of geo-textiles. Our expertise lies in providing complete end-to-end solutions which are proprietary in nature, undertaking supply and commissioning geo-infra projects in India and neighbouring countries. As India stands at

the cusp of major infrastructural development to take its rightful place among the developed nations of the world, we see a huge opportunity for our geo-textile business. The opportunities are expected to multiply manifold as geo-textiles gain increased acceptance by infrastructure contractors driven by its benefits over the maintenance cycle. Additionally, geo-textile solutions are an eco-friendly, cheaper alternative to conventional materials. Based on these fundamentals, we expect the geo-textile business to be a significant contributor to our revenue in the next two-three years. Backed by our capabilities, we are bidding aggressively for projects in the geo-textiles segment to ensure that we create a strong order book that provides robust revenue visibility for the coming years.

In conclusion, the opportunities are enormous for our business, both in the FIBC as well as the geo-textiles market. Our robust infrastructure facilities, the enduring nature of our customer relationships, and our global platform will serve us well in the years ahead, enabling us to create higher value. Moreover, we are committed to innovating and remaining on the path of relevance to our customers.

On behalf of the Board, I would like to thank the entire team of Flexituff for the dedication and professionalism that they have demonstrated throughout another successful year. I would also like to express my gratitude to our shareholders, partners, vendors, creditors and customers for their continued support. You can be assured that we shall work diligently to take this Company to greater heights.

With regards,

Anirudh Sonpal
Chairman

MANAGEMENT DISCUSSION AND ANALYSIS

ECONOMIC REVIEW

The world witnessed tectonic shifts in the geo-political trends during the year under review. The World Bank expects the global economy to advance at 2.7% in 2017 as against the growth of 2.4% recorded in 2016.

During the review period, the global trade came under severe pressure due to conservative policies adopted by few advanced economies. Electors in advanced countries voted in favour of preferential treatment for local businesses perceiving job-related migration as a threat to local employment generation. In FY 2016-17, older trade blocs in advanced economies disintegrated and reducing trade deficits with emerging world economies acquired a priority in many developed economies.

Amidst such challenging global environment, the Indian economy did well in FY 2016-17. Despite the transient negative impact of demonetisation on economic activities, the Indian economy grew by 7.1% in FY 2016-17. In the previous Financial Year, retail inflation moderated to 4.5% and stayed within the comfort zone of the RBI. Over the medium term, the RBI aims to contain inflation at around 4% mark. Industrial growth remained lack lustre at 5.1%.

The World Bank expects the Indian economy to grow at 7.2% in FY 2017-18. Factors such as higher government spending on infrastructure, the measured response by the government to negate the effects of demonetisation, implementation of Goods and Services Tax (GST), and recovery in the private sector capex cycle are likely to help India record high growth in FY 2017-18.

Going forward, moderating inflation, falling interest rates, various government initiatives such as Make in India, Skill India, Smart Cities Mission, Digital India and Housing for All among others are likely to drive the industrial growth and help the private sector companies attract foreign investments. Higher consumption demand, continued government spending on infrastructure and revival in the private sector capex cycle may serve as growth catalysts. Stable commodity prices and lower currency fluctuations would further facilitate the economic growth in India.

INDUSTRIAL REVIEW

Textile materials which are manufactured entirely for their technical applications and functional usage are known as technical textiles. They are not produced for aesthetic or decorative qualities thus the demand for them depends chiefly on the pace of economic growth and industrialisation. At present, North America is the biggest

consumer of technical textiles followed by Western Europe and Asia-Pacific respectively. This situation is likely to change though, over next one decade.

As per the research report published by Future Market Insights, the Asia-Pacific market is expected to emerge as the world's most prominent market for technical textiles with a revenue share of more than 50%, over next one decade. The report titled "Technical Textiles Market: Global Industry Analysis and Opportunity Assessment, 2017-2027," predicts the global technical textile market to grow at 4.6% compounded annualized rate until 2027 to become worth US\$ 260.3 billion from the current level of US\$ 166 billion.

Factors such as rapid development of infrastructure and growing awareness about the environmental issues are likely to push the demand for technical textiles in the emerging markets higher.

Indian Technical Textile Industry

The technical textile sector in India is expected to grow at a compounded annualised rate of 9.6% to become US\$ 32 billion market by FY 2022-23. India may continue to remain a major market for the technical textiles in the global context due to cost-effectiveness, durability and versatility of the products manufactured in India. As per the report published by the Federation of Indian Chambers of Commerce and Industry (FICCI), Packtech is the largest segment of the Indian technical textile market, followed by Indutech, Mobitech and Hometech.

Government Support

Out of 2,500 larger industries engaged in producing various textile products nearly 1,000 have already received the financial assistance under Amended Technology Upgradation Fund Scheme (ATUFS). Simultaneously, the Ministry of Textiles has been promoting the technical textiles and creating awareness about their utility in improving productivity, health standards and the state of infrastructure. The relaxed FDI policy may further boost the growth of the technical textile sector.

The government slashed income tax rates for the Small and Medium Enterprises (SMEs) by 5% in the Union Budget 2017-18. Therefore, now all SMEs with an annual turnover upto ₹ 50 crore would be liable to pay just 25% tax. This is expected to give a considerable boost to SMEs engaged in the textiles manufacturing. Indian technical textiles industry is highly fragmented in nature and dominated mostly by the SMEs.

COMPANY OVERVIEW

Flexituff International Limited (hereinafter called as "FIL" or "Company") is one of India's finest manufacturers and exporters of technical textile products. Being a 100% vertically-integrated company – engaged in manufacturing woven, non-woven and composite fabrics, FIL caters to the demand of 4 segments—retail, industrial, agriculture and infrastructure. It has 4 manufacturing facilities in India and has 2 direct and 2 indirect subsidiaries. FIL provides employment to more than 7,000 people. It exports its products to over 60 countries and derives more than half of its revenues from exports. Based on its robust financial performance, FIL featured in "Dun & Bradstreet India's Top 500 Companies 2016." In 2017 the position is expected to consolidate further.

FIL has an installed polymer processing capacity of more than 74,000 metric tonnes per annum. It also owns the world's largest FIBC clean-room manufacturing facility. Besides, it is India's largest producer of geo-textiles and Injection-moulded drippers. FIL has to its credit the industry's largest Research and Development (R&D) centre in India and owns several patents and proprietary rights of technologies.

SEGMENTAL GROWTH DRIVERS

FIBC

FIBCs find applications in food, pharmaceutical, agriculture and chemical industry. They are primarily used for the shipment and intermediate storage of dry and flowing products which are in powder, flake, or granular form. According to the Flexible Intermediate Bulk Container Association (FIBCA), FIBCs have the "lowest package to product weight ratio", and they can be handled, transported and stored without pallets—thus they are the most preferred option. As per the report "Global FIBC Market 2017-2021" published by Reports n Reports, the global FIBC market is expected to grow at a compounded annualised rate of 6.3% between 2017 and 2021. The FIBC industry has been witnessing a high demand from the agricultural and chemical industries which have been posting above-average growth lately. On the back of firm domestic demand and closure of FIBC production facilities in neighboring and advanced economies, the Indian FIBC industry is expected to post a steady growth even in future.

GEO-TEXTILES

Geo-textiles are widely used in road construction, pavement repairs, erosion control, drainage systems and agriculture. Thus, the demand for geo-textiles is primarily driven by the pace

of industrialisation and the public spending on infrastructure projects. Factors such as durability, consumption of biodegradable raw material and cost-effectiveness are also expected to show a positive impact on the demand for geo-textiles.

As per the report "Geotextile Market Forecast, 2017 – 2024" published by the Global Market Insights, Inc., the global geo-textiles market may value over US\$ 12 billion by 2024, Out of which over 1/4th of demand is likely to come from the road construction industry. Usage of geo-textiles in road building improves structural integrity, load-bearing capacity and enhances the longevity as well. Since it assists in building roads faster, cost-efficiency is an added advantage of using geo-textiles.

Various government initiatives such as Affordable Housing and the Smart Cities Mission will create a consistent demand for geo-textiles in India. Moreover, government's thrust on building infrastructure will open up exciting growth opportunities for the geo-textiles manufacturers in India.

REVERSE-PRINTED BOPP WOVEN BAGS

Reverse-printed BOPP woven bags are in high demand for their impactful advertising effect, pleasing appearance, flatness, high gloss surface and superior quality printing. Besides, factors such as high tensile strength, water proofness and moisture resistant properties make reverse-printed BOPP woven bags one of the most preferred choices in the packaging industry. Retail sector and commercial establishments drive the demand for reverse-printed BOPP woven bags.

India ranks as the fifth largest market among the preferred retail markets globally. Favourable demographics, rapid urbanisation, higher disposable income are expected to boost the growth in India's organised retail. As per India Brand Equity Foundation (IBEF) report, Indian retail industry would become ₹ 1.3 trillion worth industry by 2020—thereby growing at a compounded annualised rate of 16.7%. Cost competitiveness and rapid growth experienced in the online retail may continue to drive the overall growth of India's retail industry. Reforms introduced in the Foreign Direct Investment (FDI) policy will further facilitate the growth.

The high demand trends in the Indian retail industry will continue to push demand for reverse-printed BOPP woven bags higher.

POLYMER COMPOUNDS

According to IBEF, Indian plastics industry provides employment opportunity to over 4 million people and constitutes over 30,000 processing units—out of which around 85%-90% are Small and Medium Enterprises (SMEs).

Contrary to the sluggish growth trend experienced across the global plastics industry, the industry in India is growing at a healthy pace. Strong demand from the sectors such as automobiles, e-commerce and packaging helped Indian plastics market grow at 12% this year.

As per the Plast India Foundation's estimates, consumption of plastics in India is set to grow to 20 Metric Tonnes Per Annum (MMTPA) from the current level 12 MMTPA, by 2020. As a result of various government initiatives such as Skill India, Digital India, Make in India and Smart Cities Mission, India's plastics consumption will increase in future. Post demonetisation and the implementation of GST, the plastics and polymers market is likely to become more transparent and organised.

DRIP IRRIGATION

India has been facing serious problems pertaining to the availability of ground water. Contamination and overdraw of ground water have pushed India in a worrisome state. Close to 62% of ground water is utilised for the farm irrigation in India. Agricultural states such as Punjab, Haryana, Rajasthan and Tamil Nadu have witnessed high ground water development in the recent past. Ground water development suggests the amount of ground water extraction vis-à-vis the quantum of net annual ground water availability.

Inefficient use of water makes drip irrigation more compelling...

Crop	Water used (in cubic metres per tonne of produce)			
	Brazil	India	China	U.S
Rice	3,082	2,800	1,321	1,275
Sugarcane	155	159	117	103
Wheat	1,616	1,654	690	849
Cotton	2,777	8,264	1,419	2,535

(Source: PRS; National Water Footprint Account, UNESCO-Institute for Water Education)

According to a research report "Overview of Ground Water in India" published by PRS in 2016, the per capita annual availability of water has depleted by 15% in a decade. This calls for the measured use of water resources.

Drip irrigation helps save 40%-70% water and improves the quality and productivity of the produce. It also assists in eliminating soil erosion, and since it indirectly helps in curbing the weed growth, it assists in saving fertiliser and labour cost.

OUTLOOK

FIL has a presence across 7 high-growth potential segments of the technical textiles industry viz—Packtech, Geotech, Homotech,

Buildtech, Mobitech, Indutech and Agrotech among others. As the Ministry of Textiles is determined to create awareness about technical textiles products in India and assist Indian companies in achieving higher exports in this segment, specialised companies such as FIL are likely to benefit. Apart from that, the Company is likely to gain mileage after the implementation of GST which will bring all manufacturers at par. Various government programmes such as Skill India, Make In India, Housing For All and Smart Cities Mission among others are also expected to offer multiple growth opportunities to FIL.

Company's constant focus on R&D coupled with various government initiatives will help it remain highly competitive amidst constantly changing market conditions. FIL endeavours to drive growth in revenue by capitalising on the various government initiatives targeted at ramping up country's infrastructure facilities. The Company aims to offer end-to-end solutions right from the supply of material to commissioning of geo-infra projects in India and neighboring countries.

In the Union Budget 2017-18, the government has allocated massive ₹ 3.96 lakh crore for the infrastructure development and ₹ 58,663 crores for the development of agriculture and allied sectors. This bodes well for FIL.

RISK REVIEW

Changing business environment: Trans-Pacific Partnership (TPP) may have an adverse impact on Indian textile industry. India's competitiveness at the global landscape may be severely challenged by the countries that have signed the TPP. Moreover, backdoor entry of Chinese goods through Bangladesh is another cause of concern. Post-Brexit, India's dependence on the U.S. market has increased further. FIL endeavors to maintain its good performance through diversifying its export market thereby reducing the reliance on a particular country. Thrust on R&D and product superiority is also expected to help FIL.

Slower than expected global recovery: Since industrialisation and overall economic growth are the biggest drivers of technical textile products, slower than expected growth in export markets can dampen the prospects. As a part of its de-risking strategy, FIL derives a significant portion of its revenue from the domestic market and its export market is adequately diversified as well.

Currency fluctuation: Artificially supported currency and unprecedented volatility in the value of the domestic currency can potentially hamper Company's business. To deal with the cost pressures arising out of adverse currency movements, the Company has adopted a prudent foreign exchange policy.

Volatility in raw material prices: The technical textiles industry works on very competitive cost structure and unanticipated rise in the raw material prices can cause shrinkage in margins since costs can't be fully transferred to the customers. The Company deals with this challenge through careful inventory management.

INTERNAL CONTROL SYSTEMS AND ADEQUACY

FIL has established a system of adequate and effective internal controls befitting to the nature and size of its business along with the complexities involved in its operations. The internal controls are designed to ensure that all assets are verified to ascertain their veracity, safeguarding and protection against any unauthorised use and disposition. A system of checks and balances is also in place covering all levels and functions. This enables to minimise business risks and ensure that every single transaction is duly authorised, recorded and reported. The Company strictly adheres to all rules, policies, statutes and laws to make sure that all statutory compliances are fulfilled and transparency is maintained.

FINANCIAL REVIEW

- In FY 2016-17, Company's revenues from operations increased from ₹ 11562.40 million in FY 2015-16 to ₹ 13,263.77 million in FY 2016-17, thereby recording a growth of 14.71%.
- The company reported a growth of 16.58% in EBITDA (Earnings before Interest, Tax, Depreciation and Amortization) in FY 2016-17 which reached to ₹ 1846.60 million. In FY 2015-16, the Company had recorded the EBITDA of ₹ 1584.01 million.
- By recording an increase of 2.28% in FY 2016-17, the net worth of the Company climbed to ₹ 3867.09 million.

HUMAN RESOURCES AND INDUSTRIAL RELATIONS

The greatest asset of the Company is its people who always play a crucial role in putting the Company on a growth path. The industrial relations remained cordial in FY 2016-17.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments,

the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2017, and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books
 - (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - (e) In our opinion, there are no matters that may have an adverse effect on the functioning of the Company.
 - (f) On the basis of the written representations received from the directors as on March 31, 2017 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (g) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in 'Annexure A'
 - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the

Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer note 29 to the standalone financial statements.
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv. The Company has provided requisite disclosures in its financial statements as to holdings as well as dealings in Specified Bank Notes during the period November 8,

2016 to December 30, 2016 and these are in accordance with the books of account maintained by the company - Refer note 18 to the standalone financial statements.

2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of sub-section 11 of section 143 of the Act, we give in the 'Annexure B', a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF FLEXITUFF INTERNATIONAL LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Flexituff International Limited ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI) (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion on adequacy and therefore operating effectiveness of Internal Financial Controls Over Financial Reporting

According to the information and explanations given to us and based on our audit, the following material weakness has been identified as at March 31, 2017:

The internal control process with respect to vendor selection and analysis of quotation in relation to purchase of stores and spares, consumables and fixed assets are not adequately documented. These could result in misstatements in the related financial statement areas in the books of account of the Company such as trade payables, consumption, fixed assets, etc.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

In our opinion, except for the effects of the material weakness described above on the achievement of the objectives of the control criteria, the Company has maintained, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as of March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

We have considered the material weakness identified and reported above in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2017 standalone financial

statements of the Company, and these material weaknesses do not affect our opinion on the standalone financial statements of the Company.

ANNEXURE B TO INDEPENDENT AUDITORS' REPORT

[Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditors' Report of even date to the members of Flexituff International Limited on the financial statements for the year ended March 31, 2017]

- i. (a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
- (b) All the fixed assets have not been physically verified by the management during the year but there is a regular program of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company.
- ii. The inventory (excluding stocks with third parties), has been physically verified by the management during the year. In respect of inventory lying with third parties, these have substantially been confirmed by them. In our opinion, the frequency of verification is reasonable. No material discrepancies were noticed on verification between the physical stocks and the book records.
- iii. The Company has granted loans, secured or unsecured to a company and five LLPs covered in the register maintained under section 189 of the Act.
 - (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the rate of interest and other terms and conditions on which the loans have been granted to company and LLPs covered in the register maintained under section 189 of the Companies Act, 2013 are not, prima facie, prejudicial to the interest of the Company.
 - (b) In the case of the loans granted to company and LLPs covered in the register maintained under section 189 of the Companies Act, 2013, schedule of repayment of principal and payment of interest have been stipulated and the borrowers have been regular in the payment of the principal and interest.
 - (c) There are no amounts overdue for more than ninety days in respect of the loans granted to company and LLPs covered in the register maintained under section 189 of the Companies Act.
- iv. In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Act, in respect of loans, investments, guarantees and security made.
- v. In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of sections 73, 74, 75 and 76 of the Act, the rules

framed thereunder and the Circulars, notifications issued from time to time with regard to the deposits accepted. No order has been passed by the Company Law Board or National Company Law Tribunal or Reserve Bank of India or any Court or any other Tribunal in this respect.

- vi. The provisions of sub-section (1) of section 148 of the Act are not applicable to the Company as the Central Government of India has not specified the maintenance of cost records for any of the products of the Company. Accordingly, the provisions stated in paragraph 3 (vi) of the Order are not applicable to the Company.
- vii. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is generally regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and any other statutory dues applicable to it.

According to the information and explanation given to us, no undisputed amounts are payable in respect of provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and any other statutory dues which were applicable to it were in arrears, as at March 31, 2017 for a period of more than six months from the date they became payable.

- (b) According to the information and explanation given to us, there are no dues of service tax, customs duty, excise duty and cess which have not been deposited on account of any dispute. However, according information and explanation given to us and the records of the Company examined by us, the dues outstanding of income-tax, sales-tax, value added tax, cess and any other statutory dues on account of any dispute, are as follows:

SIGNIFICANT ACCOUNTING POLICIES

1) Corporate Information

Flexituff International Limited ('the Company'), is a public company domiciled in India. Its shares are listed in two stock exchanges in India. The Company is engaged in manufacturing of technical textile. Manufacturing units are located at Pithampur in Madhya Pradesh and at Kashipur in Uttarakhand.

2) Summary of significant accounting policies

a. Basis of Preparation

The financial statements have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP) under the historical cost convention on an accrual basis in compliance with all material aspects of the Accounting Standards (AS) notified under section 133 of the Companies Act 2013, read together with Rule 7 of the Companies (Accounts) Rules 2014. The accounting policies adopted in the preparation of financial statements have been consistently applied. The accounting policies adopted in the preparation of financial statements have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy until now (hitherto) in use with those of previous year.

b. Use of estimates

The preparation of financial statements requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities, at the end of the reporting period. Although, these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumption and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current/ noncurrent classification of assets and liabilities.

c. Property, plant and equipment

Tangible assets

Tangible fixed assets are stated at cost, less accumulated depreciation and impairment loss, if any. Cost comprises the purchase price, borrowing costs, if capitalization criteria are met and any cost attributable to bringing the assets to its working condition for its intended use which includes taxes, freight, and installation and allocated incidental expenditure during construction/ acquisition and exclusive of CENVAT credit or other tax credit available to the Company.

When parts of an item of tangible fixed assets have different useful lives, they are accounted for as separate items (major components) of fixed asset.

Subsequent expenditure relating to fixed assets is capitalized only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

Intangible assets

An intangible asset is recognized when it is probable that the future economic benefits attributable to the asset will flow to the enterprise and where its cost can be reliably measured. Intangible assets are stated at cost of acquisition less accumulated amortization and impairment loss, if any. Cost comprises the purchase price and any cost attributable to bringing the assets to its working condition for its intended use which includes taxes, freight, and installation and allocated incidental expenditure during construction/ acquisition and exclusive of CENVAT credit or other tax credit available to the Company.

Subsequent expenditure relating to intangible assets is capitalized only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

d. Depreciation on fixed asset

Depreciation on fixed assets is calculated on a straight-line basis using the rates arrived at based on the useful lives prescribed under the schedule II to the Companies Act, 2013 except for plant and machinery and servers where useful life is estimated by the management, which is different as compared to those prescribed under the Schedule II to the Companies Act, 2013.

Notes forming part of Financial Statements for the year ended March 31, 2017

₹ in Millions

Block of assets	Useful life (in years)
Factory building	30
Office equipment	5
Plant and machinery	15
Electrical installations	10
Furniture and fittings	10
Motor vehicles	8
Computers	3

Depreciation on addition to tangible fixed assets is provided on pro-rata basis from the subsequent month of the assets are ready for intended use. Depreciation on sale/discard from tangible fixed assets is provided upto the previous month of sale date, deduction or discard of tangible fixed assets as the case may be.

e. Amortization of Intangible assets

Amortization of intangible assets has been calculated on straight line basis at the following rates, based on management estimates, which in the opinion of the management are reflective of the estimated useful lives of the Intangible assets.

Block of assets	Useful life (in years)
Development assets	5
Computer software	3
Patents	5

Amortization on addition to intangible assets is provided on pro-rata basis from the subsequent month of the assets are ready for intended use. Amortization on sale/discard from intangible assets is provided upto the previous month of sale, deduction or discard of intangible assets as the case may be.

f. Impairment of assets

The carrying amounts of assets are reviewed at each balance sheet date for if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

After impairment, depreciation/amortization is provided on the revised carrying amount of the asset over its remaining useful life.

g. Borrowing costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that takes a substantial period of time to get ready for its intended use are capitalized. All other borrowing costs are recognised as expenditure in the period in which they are incurred.

h. Assets taken on lease

(i) Operating leases – where the Company is a lessee

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Rentals and all other expenses in respect of assets taken on lease are debited to statement of Profit and Loss on straight line basis over the lease term.

(ii) Finance leases – where the company is a lessee

Assets acquired under finance leases which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the leased item, are capitalized and a corresponding loan liability is recognized. The lease rentals paid are bifurcated into principal and interest component by applying an implicit rate of return. The interest is charged as a period cost and the principal amount is adjusted against the liability recognized in respect of assets taken on financial lease.

A leased asset is depreciated on a straight-line basis over the useful life of the asset assessed by the management. However, if there is no reasonable certainty that the Company will obtain the ownership by the end of the lease term, the capitalized asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset.

i. Foreign currency translation

Initial recognition:

Foreign currency transactions are recorded in the reporting currency by applying the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when such values were determined.

A monetary asset or liability is termed as a long-term foreign currency monetary item, if the asset or liability is expressed in a foreign currency and has a term of 12 months or more at the date of origination of the asset or liability.

Exchange differences:

Exchange differences arising on the settlement of monetary items or on reporting the Company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they occur.

The exchange differences arising on restatement / settlement of long-term foreign currency monetary items are capitalized as part of the depreciable fixed assets to which the monetary item relates and depreciated over the remaining useful life of such assets.

Forward exchange contracts

The Company uses foreign exchange forward contracts derivative instruments to hedge its exposure on account of movements in foreign exchange. These derivatives are generally entered with banks and not used for trading or speculation purposes. These derivative instruments are accounted as follows:

For forward contracts which are entered into to hedge the foreign currency risk of the underlying instrument outstanding on the date of entering into that forward contract, the premium or discount on such contracts is amortized as income or expense over the life of the contract. Any profit or loss arising on the cancellation or renewal of forward contracts is recognized as an income or expense for the period. The exchange difference on such a forward exchange contract is calculated as the difference between-

- i. the foreign currency amount of the contract translated at the exchange rate at the Balance Sheet date, or the settlement date where the transaction is settled during the reporting period, and

- ii. the same foreign currency amount translated at the later of the date of inception of the forward exchange contract and the last reporting date. Such exchange differences are recognized in the Statement of Profit and Loss in the reporting period in which the exchange rates change.

Forward contracts which are entered into to hedge the foreign currency risk of the highly probable transactions or firm commitments are valued at fair value at each Balance Sheet date. The resultant loss from these transactions is recognised in the Statement of Profit and Loss. However, in case of resultant gains, such gains are not accounted in the books of accounts of the Company. Decrease in fair valuation loss already recognised in earlier years are reversed in the year of such decrease in fair valuation loss.

j. Investments**Accounting treatment**

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

Classification in the financial statements

Investments that are realisable within the period of twelve months from the balance sheet date are classified as current investment. All other investments are classified as non-current investments.

k. Sale of trade receivables

Sale of insured trade receivables to banks whereby significant risks and rewards are transferred is treated as "true sale" for both legal and financial reporting purposes and accordingly, these receivables are not reflected on the balance sheet of the Company.

l. Export benefits

Duty free imports of raw materials under Advance License for imports as per the Import and Export Policy

Notes forming part of Financial Statements for the year ended March 31, 2017

₹ in Millions

are matched with the exports made against the said licenses and the net benefit / obligation is accounted by making suitable adjustments in raw material consumption.

The benefit accrued under the Duty Drawback, Focus Market Scheme, Merchandise Exports from India Scheme and other schemes as per the Import and Export Policy in respect of exports made under the said schemes is included as 'Export Incentives' under the head 'Other operating revenue'.

m. Revenue recognition

Revenue is recognised to the extent, that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Revenue from sale of goods

Revenue from sale of goods is recognised when the significant risks and rewards of ownership of the goods are transferred to the buyer and are recorded net of trade discounts, rebates, Sales Tax, Value Added Tax and gross of Excise Duty.

Revenue from sale of services

Income from services are recognized as and when the services are rendered. The Company collects service tax on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

Interest Income

Interest Income is recognised on a time proportion basis taking into account the amount outstanding and applicable interest rate.

n. Retirement and other employee benefits

Defined contribution plan

The Company makes defined contribution to Government Employee Provident Fund, Employee Deposit Linked Insurance, Employee state insurance and labour welfare funds which are recognised in the Statement of Profit and Loss on accrual basis.

The Company has no further obligations under these plans beyond its monthly contributions.

Defined benefit plan - Gratuity

The Company provides for retirement benefits in the form of Gratuity. Benefits payable to eligible employees of the Company with respect to gratuity, a defined benefit plan is accounted for on the basis of an actuarial

valuation as at the Balance Sheet date. In accordance with the Payment of Gratuity Act, 1972, the plan provides for lump sum payments to vested employees on retirement, death while in service or on termination of employment an amount equivalent to 15 days basic salary for each completed year of service. Vesting occurs upon completion of five years of service. The present value of such obligation is determined by the projected unit credit method and adjusted for past service cost and fair value of plan assets as at the balance sheet date through which the obligations are to be settled. The resultant actuarial gain or loss on change in present value of the defined benefit obligation or change in return of the plan assets is recognised as an income or expense in the Statement of Profit and Loss. The expected return on plan assets is based on the assumed rate of return of such assets. The Company contributes to a fund set up by Life Insurance Company of India.

Other long term benefits

Leave encashment - Encashable

The employees are entitled for 15 days leave during the calendar year, which can be accumulated up to 75 days. The company provides for the liability at year end on account of unavailed leave as per the actuarial valuation using the Projected Unit Credit Method. Liabilities in respect of this kind of leave are unfunded.

Actuarial gains and losses are recognised in the Statement of Profit and Loss as and when incurred.

o. Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposits with banks, other short term highly liquid investments with original maturities of three months or less.

p. Research and development expenditure

Research Costs are charged as an expense in the year in which they are incurred and are reflected under the appropriate heads of account. Development expenditure is carried forward when its future recoverability can reasonably be regarded as assured and is amortized over the period of expected future benefit.

q. Inventories

Raw materials, consumables and stores and spares are valued at lower of cost or net realizable value. However, these items are considered to be realisable at replacement cost if the finished goods, in which they will be used, are expected to be sold below cost.

Cost of inventories is computed on a moving weighted-average basis. Cost includes purchase price, freight inwards and other expenditure incurred in bringing such inventories to their present location and condition.

Work in progress and manufactured finished goods are valued at the lower of cost and net realisable value. Cost of work in progress and manufactured finished goods is determined on the moving weighted average basis and comprises direct material, cost of conversion and other costs incurred in bringing these inventories to their present location and condition.

Cost of traded goods is valued at lower of cost or net realisable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on moving weighted average basis.

Excise duty liability, wherever applicable, is included in the valuation of closing inventory of finished goods.

Provision of obsolescence on inventories is considered on the basis of management's estimate based on demand and market of the inventories.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale. The comparison of cost and net realizable value is made on item by item basis.

r. Income taxes

Tax expense for the period comprises of current tax, deferred tax and Minimum alternate tax credit.

Provision for current tax is made on the basis of estimated taxable income for the current accounting year in accordance with the Income-tax Act, 1961.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts, and there is an intention to settle the asset and the liability on a net basis.

The deferred tax for timing differences between the book and tax profits for the year is accounted for, using the tax rates and laws that have been substantively enacted as of the reporting date.

Deferred tax charge or credit reflects the tax effects of timing differences between accounting income and taxable income for the period. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance

sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carry forward of losses, deferred tax assets are recognised only if there is a virtual certainty of realization of such assets. Deferred tax assets are reviewed at each balance sheet date and are written-down or written up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

At each reporting date, the Company reassesses the unrecognized deferred tax assets, if any.

Minimum alternate tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the Statement of Profit and Loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

s. Contingent liability, provisions and contingent asset

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that probably will not require an outflow of resources or where a reliable estimate of the obligation cannot be made.

Contingent assets are neither recorded nor disclosed in the financial statements.

t. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

Notes forming part of Financial Statements for the year ended March 31, 2017

₹ in Millions

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

u. Government grants and subsidies

Grants and subsidies from the government are recognised when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant/subsidy will be received.

When the grant or subsidy related to revenue, it is netted off from respective expenditure on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant is related to an asset, it is recognised as deferred income and released to income in equal amounts over the expected useful life of the related asset.

v. Employee stock compensation cost

Employees (including senior executives) of the Company receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments (equity-settled transactions).

In accordance with the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 and the Guidance Note on Accounting for Employee Share-based Payments, the cost of equity-settled transactions is measured using the intrinsic value method. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit recognized in the statement of profit and loss for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is

the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total intrinsic value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

w. Segment reporting

The accounting policies adopted for segment reporting are in conformity with the accounting policies adopted for the Company. The Company's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.

Further, inter-segment revenue have been accounted for based on the transaction price agreed to between segments which is primarily market based.

Unallocated items include general corporate income and expense items, which are not allocated to any business segment.

x. Corporate social responsibility

All expenditure are recognized in Statement of profit on loss on accrual basis and hence no provision is made against unspent amount, if any.

y. Accounting for Interest in Joint Ventures

Type of Joint Venture	Accounting treatment
Jointly controlled entities	<ul style="list-style-type: none"> Company's share in profits or losses of joint ventures is accounted on determination of the profits or losses by the joint ventures. INDEPENDENT AUDITOR'S REPORT

To the Members of Flexituff International Limited

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Flexituff International Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), and jointly controlled entities comprising of the Consolidated Balance Sheet as at March 31, 2017, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group including its jointly controlled entities in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group and jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and jointly controlled entities and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance

about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and jointly controlled entities as at March 31, 2017, and their consolidated profit and their consolidated cash flows for the year ended on that date.

Other Matter

- a. We did not audit the financial statements of a subsidiary company and five jointly controlled entities, whose financial statements reflect total assets of ₹ 704.41 million as at March 31, 2017 and total revenues of ₹ 492.28 million and net cash flows amounting to ₹ 2.30 million for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by the other auditors whose reports have been furnished to us, and our opinion in so far as it relates to the amounts and disclosures included in respect of this subsidiary and five jointly controlled entities, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, insofar as it relates to the aforesaid subsidiary and jointly controlled entities, is based solely on the report of other auditors.
- b. We did not audit financial statements of two subsidiary companies (including one step down subsidiary). Aggregate amount of total assets, revenue and net cash flows of these two subsidiaries for the year ended on March 31, 2017 are ₹ 677.36 million, ₹ 1,213.62 million and ₹ 25.54 million

respectively whose financial statements are prepared under Generally Accepted Accounting Principles (GAAPs) accepted in the respective countries. These financial statements have been audited by other auditors, who have submitted their audit opinions, prepared under generally accepted auditing standards of their respective countries, to the Board of Directors of the respective companies, copies of which have been provided to us by the Holding Company. The management of the Holding Company has converted these audited financial statements of two subsidiaries, to accounting principles generally accepted in India, for the purpose of preparation of the Holding Company's consolidated financial statements under accounting principles generally accepted in India. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of such other auditors under the aforementioned GAAPs in respective countries and the aforesaid conversion undertaken by the management; examined by us on a test basis.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143 (3) of the Act, we report that:

- (a) We/the other auditors whose report we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2017 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary company incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Holding Company and its subsidiary incorporated in India and the operating effectiveness of such controls, refer to our separate report in 'Annexure A'
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group and its jointly controlled entities – Refer Note 28 to the consolidated financial statements.
 - ii. The Group and its jointly controlled entities did not have any material foreseeable losses on long-term contracts including derivative contracts.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Group and its jointly controlled entities.
 - iv. The Group and its jointly controlled entities has provided requisite disclosures in the consolidated financial statements as to holdings as well as dealings in Specified Bank Notes as defined in the Notification S.O. 3407(E) dated November 8, 2016 of the Ministry of Finance, during the period from November 8, 2016 to December 30, 2016 with respect to its subsidiaries and jointly controlled entities incorporated in India. Based on audit procedures and relying on the management representation we report that the disclosures are in accordance with books of account maintained by the Group and as produced to us by the Management – Refer note 17.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF FLEXITUFF INTERNATIONAL LIMITED ("the Holding Company")

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Holding Company as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of the Holding Company and its subsidiary company which is incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary Company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI) (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Group's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our qualified audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Group's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The Group's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Group; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Group are being made only in accordance with authorizations of management and directors of the Group; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Group's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion on adequacy and therefore operating effectiveness of Internal Financial Controls Over Financial Reporting

According to the information and explanations given to us and based on our audit, the following material weaknesses have been identified as at March 31, 2017:

The internal control process with respect to vendor selection and analysis of quotation in relation to purchase of stores and spares, consumables and fixed assets are not adequately documented by the Holding Company. These could result in misstatements in the

related consolidated financial statement areas such as trade payables, consumption, fixed assets, etc.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

In our opinion, except for the effects of the material weaknesses described above on the achievement of the objectives of the control criteria, the respective companies incorporated in India has maintained, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as of March 31, 2017, based on the internal control over financial reporting criteria established by the respective companies incorporated in India considering the essential components of internal control stated in the Guidance Note.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to a subsidiary company, which is company incorporated in India, is based on the corresponding reports of the auditors of such company incorporated in India.

SIGNIFICANT ACCOUNTING POLICIES

1. Corporate Information

Flexituff International Limited (the Company or Holding Company) is a public company domiciled in India. Its shares are listed in two stock exchanges in India. The Holding Company is engaged in manufacturing of technical textile and it operates from central India. Manufacturing units are located at Pithampur in Madhya Pradesh and at Kashipur in Uttrakhand

2. Summary of significant accounting policies

a. Basis of preparation

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP) under the historical cost convention on an accrual basis in compliance with all material aspects of the Accounting Standards (AS) notified under section 133 of the Companies Act 2013, read together with Rule 7 of the Companies (Accounts) Rules 2014. The accounting policies adopted in the preparation of consolidated financial statements have been consistently applied except a revision to an existing accounting standard requires a change in the accounting policy until now in use with those of previous year.

All assets and liabilities have been classified as current or non-current as per the Group and jointly controlled entities' normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Group and joint ventures has ascertained its operating cycle as 12 months for the purpose of current/ noncurrent classification of assets and liabilities. The accounting policies adopted in the preparation of financial statements are consistent with those of previous year, except for the change in accounting policy explained above.

b. Basis of consolidation

The consolidated financial statements relate to the Holding Company, its subsidiary companies (collectively referred herein under as the 'Group') and joint ventures. The consolidated financial statements have been prepared on the following basis:

- The financial statements of the Holding Company and its subsidiary companies have been combined on a line-by-line basis by adding together like items of assets, liabilities, income and expenses. The intra-group balances and intra-group transactions and unrealized profits have been fully eliminated.
- The financial statements of the joint venture entities have been combined by using proportionate

consolidation method as per Accounting Standard (AS) 27 - "Financial Reporting of Interest in Joint Ventures".

- The difference between the cost of investment in the subsidiaries, over the net assets at the time of acquisition of shares in the subsidiaries is recognized in the financial statements as Goodwill or Capital Reserve, as the case may be.
- In case of foreign subsidiaries, being non-integral foreign operations, revenue items are consolidated at the average rate prevailing during the year. All assets and liabilities are converted at rates prevailing at the end of the year. Any exchange difference arising on consolidation is recognized in the Exchange Fluctuation Reserve.
- The difference between the proceeds from disposal of investment in subsidiaries and the carrying amount of its assets less liabilities as of the date of disposal is recognized in the consolidated Profit and Loss Statement being the profit or loss on disposal of investment in subsidiary.
- As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Group and jointly controlled entities' separate financial statements.

The following subsidiary companies are considered in the consolidated financial statements:

Sr No.	Name of the company	Country of Incorporation	% of holding either directly or through subsidiaries	
			March 31, 2017	March 31, 2016

c. Use of estimates

The preparation of financial statements requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities, at the end of the reporting period. Although, these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumption and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

d. Property, plant and equipment

Tangible assets

Tangible fixed assets are stated at cost, less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price, borrowing costs, if capitalization criteria are met and any cost attributable to bringing the assets to its working condition for its intended use which includes taxes, freight, and installation and allocated incidental expenditure during construction/ acquisition and exclusive of CENVAT credit or other tax credit available to the Group and jointly controlled entities.

When parts of an item of tangible fixed assets have different useful lives, they are accounted for as separate items (major components) of fixed asset.

Subsequent expenditure relating to fixed assets is capitalized only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

e. Intangible assets

An intangible asset is recognized when it is probable that the future economic benefits attributable to the asset will flow to the enterprise and where its cost can

be reliably measured. Intangible assets are stated at cost of acquisition less accumulated amortization and impairment loss, if any. Cost comprises the purchase price and any cost attributable to bringing the assets to its working condition for its intended use which includes taxes, freight, and installation and allocated incidental expenditure during construction/ acquisition and exclusive of CENVAT credit or other tax credit available to the Group and jointly controlled entities.

Subsequent expenditure relating to intangible assets is capitalized only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

f. Depreciation on Property, plant and equipment

For Group and joint ventures except, Flexiglobal (UK) Limited, Depreciation on fixed assets is calculated on a straight-line basis using the rates arrived at based on the useful lives prescribed under the schedule II to the Companies Act, 2013 except for plant & machinery and server where useful life is estimated by the management, which is different as compared to those prescribed under the Schedule II to the Companies Act, 2013.

Block of assets	Useful life (in years)
Factory building	30
Office equipment	5
Plant and machinery	15
Electrical installations	10
Furniture and fittings	10
Motor vehicles	8
Computers & Server	3

Leasehold improvements are depreciated over their estimated useful life, or the remaining period of lease from the date of capitalization, whichever is shorter.

In case of Flexiglobal (UK) Limited, a foreign subsidiary, depreciation on fixed assets is calculated as follows:

Block of assets	Basis of depreciation	Useful life (in years)
Freehold property	Straight-line	50
Plant and machinery	Written down	10
Furniture and fittings	Written down	10

Depreciation on addition to tangible fixed assets is provided on pro-rata basis from the subsequent month of the assets are ready for intended use. Depreciation on sale/discard from tangible fixed assets is provided upto the previous month of sale date, deduction or discard of tangible fixed assets as the case may be.

g. Amortisation of intangible assets

Amortisation of intangible assets has been calculated on straight line basis at the following rates, based on

Notes forming part of Consolidated Financial Statements for the year ended March 31, 2017

₹ in Millions

management estimates, which in the opinion of the management are reflective of the estimated useful lives of the Intangible assets.

Block of assets	Useful life (In years)
Development Assets	5-7
Computer Software	3
Patent	5

Amortisation on addition to intangible assets is provided on pro-rata basis from the the subsequent month of the assets are ready for intended use. Amortisation on sale/discard from intangible assets is provided upto the previous month of sale, deduction or discard of intangible assets as the case may be.

h. Impairment of assets

The carrying amounts of assets are reviewed at each balance sheet date for if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

After impairment, depreciation/amortisation is provided on the revised carrying amount of the asset over its remaining useful life.

i. Borrowing Costs

Borrowing cost includes interest, amortisation of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that takes a substantial period of time to get ready for its intended use are capitalised. All other borrowing costs are recognised as expenditure in the period in which they are incurred.

j. Assets taken on lease

(i) Operating leases – where Group and jointly controlled entities are lessee

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases.

Rentals and all other expenses in respect of assets taken on lease are debited to statement of Profit and Loss on straight line basis over the lease term.

(ii) Finance leases

Assets acquired under finance leases which effectively transfer to the Group and jointly controlled entities substantially all the risks and benefits incidental to ownership of the leased item, are capitalised and a corresponding loan liability is recognised. The lease rentals paid are bifurcated into principal and interest component by applying an implicit rate of return. The interest is charged as a period cost and the principal amount is adjusted against the liability recognised in respect of assets taken on financial lease.

k. Foreign currency translation

Initial recognition:

Foreign currency transactions are recorded in the reporting currency by applying the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when such values were determined.

A monetary asset or liability is termed as a long-term foreign currency monetary item, if the asset or liability is expressed in a foreign currency and has a term of 12 months or more at the date of origination of the asset or liability.

Exchange differences:

Exchange differences arising on the settlement of monetary items or on reporting the Group and jointly controlled entities' monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they occur.

The exchange differences arising on restatement / settlement of long-term foreign currency monetary items are capitalised as part of the depreciable fixed assets to which the monetary item relates and depreciated over the remaining useful life of such assets.

Forward exchange contracts

The Group and jointly controlled entities uses foreign exchange forward contracts derivative instruments to hedge its exposure on account of movements in foreign exchange. These derivatives are generally entered with banks and not used for trading or speculation purposes. These derivative instruments are accounted as follows:

For forward contracts which are entered into to hedge the foreign currency risk of the underlying instrument outstanding on the date of entering into that forward contract, the premium or discount on such contracts is amortized as income or expense over the life of the contract. Any profit or loss arising on the cancellation or renewal of forward contracts is recognized as an income or expense for the period. The exchange difference on such a forward exchange contract is calculated as the difference between:

- i. the foreign currency amount of the contract translated at the exchange rate at the Balance Sheet date, or the settlement date where the transaction is settled during the reporting period, and
- ii. the same foreign currency amount translated at the later of the date of inception of the forward exchange contract and the last reporting date. Such exchange differences are recognized in the Statement of Profit and Loss in the reporting period in which the exchange rates change.

Forward contracts which are entered into to hedge the foreign currency risk of the highly probable transactions or firm commitments are valued at fair value at each Balance Sheet date. The resultant loss from these transactions is recognised in the Statement of Profit and Loss. However, in case of resultant gains, such gains are not accounted in the books of accounts of the Group and jointly controlled entities. Decrease in fair valuation loss already recognised in earlier years are reversed in the year of such decrease in fair valuation loss.

l. Sale of trade receivables

Sale of insured trade receivables to banks whereby significant risks and rewards are transferred is treated as "true sale" for both legal and financial reporting purposes and accordingly, these receivables are not reflected on the balance sheet of the Group and jointly controlled entities.

m. Export benefits

Duty free imports of raw materials under Advance Licence for imports as per the Import and Export Policy are matched with the exports made against the said licences and the net benefit / obligation is accounted by making suitable adjustments in raw material consumption.

The benefit accrued under the Duty Drawback, Focus Market Scheme, Merchandise Exports from India Scheme and other schemes as per the Import and Export Policy in respect of exports made under the said schemes is included as 'Export Incentives' under the head 'Other operating revenue'.

n. Revenue recognition

Revenue is recognised to the extent, that it is probable that the economic benefits will flow to the Group and jointly controlled entities and the revenue can be reliably measured.

a) Revenue from sale of goods

Revenue from sale of goods is recognised when the significant risks and rewards of ownership of the goods are transferred to the buyer and are recorded net of trade discounts, rebates, Sales Tax, Value Added Tax and gross of Excise Duty.

b) Revenue from sale of services

Income from services are recognized as and when the services are rendered. The Group and jointly controlled entities collects service tax on behalf of the government and, therefore, it is not an economic benefit flowing to the Group and jointly controlled entities. Hence, it is excluded from revenue.

c) Interest Income

Interest Income is recognised on a time proportion basis taking into account the amount outstanding and applicable interest rate.

o. Retirement and other employee benefits**Defined contribution plan:**

The Group and jointly controlled entities makes defined contribution to Government Employee Provident Fund, Employee Deposit Linked Insurance, Employee state insurance and labour welfare funds which are recognised in the Statement of Profit and Loss on accrual basis.

The Group and jointly controlled entities has no further obligations under these plans beyond its monthly contributions.

Defined benefit plan - Gratuity:

The Group and jointly controlled entities provides for retirement benefits in the form of Gratuity. Benefits payable to eligible employees of the Group and jointly controlled entities with respect to gratuity, a defined benefit plan is accounted for on the basis of an actuarial valuation as at the Balance Sheet date. In accordance with the Payment of Gratuity Act, 1972, the plan provides for lump sum payments to vested employees on retirement, death while in service or on termination of employment an amount equivalent to 15 days basic salary for

₹ in Millions

each completed year of service. Vesting occurs upon completion of five years of service. The present value of such obligation is determined by the projected unit credit method and adjusted for past service cost and fair value of plan assets as at the balance sheet date through which the obligations are to be settled. The resultant actuarial gain or loss on change in present value of the defined benefit obligation or change in return of the plan assets is recognised as an income or expense in the Statement of Profit and Loss. The expected return on plan assets is based on the assumed rate of return of such assets. The Group and jointly controlled entities contributes to a fund set up by Life Insurance Corporation of India.

Other long term benefits: Leave encashment – Encashable

The Group and jointly controlled entities provides for the liability at year end on account of unavailed leave as per the actuarial valuation using the Projected Unit Credit Method.

Actuarial gains and losses are recognised in the Statement of Profit and Loss as and when incurred.

p. Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposits with banks, other short term highly liquid investments with original maturities of three months or less.

q. Research and development

Research Costs are charged as an expense in the year in which they are incurred and are reflected under the appropriate heads of account. Development expenditure is carried forward when its future recoverability can reasonably be regarded as assured and is amortized over the period of expected future benefit.

r. Inventories

Raw materials, consumables and stores and spares are valued at lower of cost or net realisable value. However, these items are considered to be realisable at replacement cost if the finished goods, in which they will be used, are expected to be sold below cost.

Cost of inventories is computed on a moving weighted-average basis. Cost includes purchase price, freight inwards and other expenditure incurred in bringing such inventories to their present location and condition.

Work in progress and manufactured finished goods are valued at the lower of cost and net realisable value. Cost of work in progress and manufactured finished goods is determined on the moving weighted average basis and comprises direct material, cost of conversion and other costs incurred in bringing these inventories to their present location and condition.

Cost of traded goods is valued at lower of cost or net realisable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on moving weighted average basis.

Excise duty liability, wherever applicable, is included in the valuation of closing inventory of finished goods.

Provision of obsolescence on inventories is considered on the basis of management's estimate based on demand and market of the inventories.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale. The comparison of cost and net realizable value is made on item by item basis.

s. Income taxes

Tax expense for the period comprises of current tax, deferred tax and Minimum alternate tax credit.

Provision for current tax is made on the basis of estimated taxable income for the current accounting year in accordance with the Income-tax Act, 1961.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts, and there is an intention to settle the asset and the liability on a net basis.

The deferred tax for timing differences between the book and tax profits for the year is accounted for, using the tax rates and laws that have been substantively enacted as of the reporting date.

Deferred tax charge or credit reflects the tax effects of timing differences between accounting income and taxable income for the period. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carry forward of losses, deferred tax assets are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed at each balance sheet date and are written-down or written up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realised.

At each reporting date, the Group and jointly controlled entities reassesses the unrecognized deferred tax assets, if any.

Minimum alternate tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The Group and jointly controlled entities recognizes MAT credit available as an asset only to the extent that there

is convincing evidence that the Group and jointly controlled entities will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Group and jointly controlled entities recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the Statement of Profit and Loss and shown as "MAT Credit Entitlement." The Group and jointly controlled entities reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Group and jointly controlled entities does not have convincing evidence that it will pay normal tax during the specified period.

t. Contingent liability, provisions and contingent asset

The Group and jointly controlled entities creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that probably will not require an outflow of resources or where a reliable estimate of the obligation cannot be made.

Contingent assets are neither recorded nor disclosed in the financial statements.

u. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

v. Government grants and subsidies

Grants and subsidies from the government are recognised when there is reasonable assurance that (i) the Group and jointly controlled entities will comply with the conditions attached to them, and (ii) the grant/subsidy will be received.

When the grant or subsidy related to revenue, it is recognised as income on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant is related to an asset, it is recognised as deferred income and released to income in equal amounts over the expected useful life of the related asset.

w. Segment reporting

The accounting policies adopted for segment reporting are in conformity with the accounting policies adopted for the Group and jointly controlled entities. The Group and jointly controlled entities' operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Group and jointly controlled entities operate.

Further, inter-segment revenue have been accounted for based on the transaction price agreed to between segments which is primarily market based.

Unallocated items include general corporate income and expense items, which are not allocated to any business segment.

x. Corporate social responsibility

All expenditure are recognized in Statement of profit on loss on accrual basis and hence no provision is made against unspent amount, if any

y. Employee stock compensation cost

Employees (including senior executives) of the Group and jointly controlled entities receive remuneration in the form of share based payment transactions, whereby employees render services as consideration for equity instruments (equity-settled transactions).

In accordance with the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 and the Guidance Note on Accounting for Employee Share-based Payments, the cost of equity-settled transactions is measured using the intrinsic value method. The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group and jointly controlled entities' best estimate of the number of equity instruments that will ultimately vest. The expense or credit recognized in the statement of profit and loss for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

Where the terms of an equity-settled transaction award are modified, the minimum expense recognized is the expense as if the terms had not been modified, if the original terms of the award are met. An additional expense is recognized for any modification that increases the total intrinsic value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.
